

Brief CV

Name	Dionisio Malagón-Romero	Gender	Masculine	
Title (Pro./Dr.)	Dr. Chemical Engineering	Country	Colombia	
University/Department	Universidad Santo Tomás			
Research Area	Biofuels, biochemical process and biotechnological process			
<p>I am a Doctor in Chemical Engineering, graduated in 2015 by Universidad Nacional de Colombia. I have worked in biofuels (biodiesel and hydrogen) production from different raw materials as waste cooking oil, glycerin, palm oil, and castor oil. Additionally, I have researched the production of microcarriers for human cellular culture in bioreactors. Last year I have been evaluated cavitation hydrodynamic as an alternative for extracting active principles from different vegetable species in Colombia.</p>
